The Unshared Amount and How to Reduce It

The Unshared Amount, or UA, is the amount a member must contribute as their member responsibility before expenses related to a Sharing Request become eligible with the Health Share community.

ShareWELL offers three membership UA options: \$1,500, \$3,000, and \$6,000. After the member pays the UA, additional eligible medical expenses are shared with the ShareWELL community. There is no annual or lifetime limit on eligible expenses.

Reduction Of The Unshared Amount Program

In certain instances, members can go above and beyond to keep costs down for the community. ShareWELL may authorize the reduction of a member UA when a member has done one or multiple of the following steps:

- They gathered and arranged prepayment for a scheduled surgery or procedure, resulting in significant savings.
- Demonstrated willingness to work with and, in some instances, change to a fair cost provider.
- They traveled a significant distance to a fair cost provider.
- They applied for or received financial assistance.
- They worked with a legal representative to negotiate or lower medical bills.
- Used a Center of Excellence approved by ShareWELL.

Sharing Requests

Sharing Requests are submitted by members on a per-member, per-incident basis. Each Sharing Request is the sum of related eligible medical expenses incurred by receiving medically necessary treatment from licensed medical professionals and facilities, such as physicians, emergency rooms, and hospital facilities.

ShareWELL has two types of Sharing Requests that members can submit.

Preventive Care Sharing Requests

Some memberships include sharing for preventive and wellness care that does not require a UA responsibility by the member. Preventive Sharing Requests are not subject to pre-existing condition limitations. See your preventive guide for details.

Sharing Requests subject to the Unshared Amount

Medical expenses not outlined as an eligible preventive service are subject to the Unshared Amount. This includes maternity, unexpected medical events, and care for pre-existing conditions after the first year.

Pre-Membership Medical Conditions

ShareWELL members have a waiting period for medical conditions that existed before the membership start date. A pre-existing medical condition limitation is applied based on the first date of active membership.

Any illness or injury for which a person has had any of the following occur:

- Been examined
- Taken medication
- Had symptoms
- Received medical treatment

Within 24 months prior to the effective date of the membership is considered a pre-existing condition.

Pre-existing For Cancer

Any testing, preventive treatments, prophylactics, or medications that were taken by the member 36 months prior to the start date of a previously diagnosed cancer will result in a recurrence of that type of cancer being considered a pre-existing condition.

Exceptions & Phase-in Period

High blood pressure, high cholesterol, hyperthyroidism, hypothyroidism, and type 2 diabetes will not be considered preexisting conditions as long as the member has not been hospitalized for the condition in the 12 months before enrollment.

Pre-Existing Condition Phase-in Period

Pre-existing conditions have a phase-in period wherein sharing is limited. Members have a one-year waiting period from the initial enrollment date before pre-existing conditions are eligible.

After the first year, pre-existing Sharing Requests are eligible with a sharing limit that increases each membership year.

Eligible amounts for pre-existing conditions:

- Year One: \$0 (waiting period)
- Year Two: \$30,000 maximum per need
- Year Three: \$60,000 maximum per need
- Year Four: \$150,000
- Year Five: The sharing maximum is removed for pre-existing conditions.

Ineligible For Sharing

Alternative & Holistic Health

Sharing Requests for alternative treatments is done on an equitable basis compared to the equivalent traditional treatment. If a member chooses an alternative treatment and returns to conventional care, their sharing will be limited equitably by the expenses shared towards the alternative treatment.

All alternative requests should include

1. Medical notes from the prescribing provider
2. Estimated costs and upfront payment discounts, if available
3. Explanation from a medical provider of why the alternative treatment was selected and in place of the traditional treatment.

*Treatments that do not have a proven conventional treatment will be eligible for a one-time allowance of \$2,500.

*Some alternative treatments and therapies, such as acupuncture and chiropractic care, are included in the “recovery and therapies” section of the guidelines and do not require the above documentation.

Specific Sharing Allowances

The following section describes Sharing Request allowances subject to the Unshareable Amount. Specific requests will have a maximum sharing allowance per Sharing Request or the lifetime of the membership.

Maternity

As with any other Sharing Request, expectant mothers pay a single Unshared Amount for all eligible expenses related to their Maternity Sharing Request. Eligible expenses may include miscarriage, hospital, homebirth, prenatal care, mother's complications, postnatal care, and delivery.

Conception occurring within (30) days of the membership start date is ineligible for sharing. Pregnancy existing prior to membership is not eligible. Medical records will confirm the conception date. Members who purposely misrepresent their conception dates may be subject to membership revocation.

Reduction of UA program for maternity

Members with costs not exceeding \$10,000 for delivery, postnatal, and prenatal expenses. ShareWELL will reduce the Unshared Amount responsibility by \$1,000.
